Step 2 - Choose your route

We'll explain the difference between FLP and the traditional Professional Qualification to help you decide what's best for you.

Step 3 - Pick your subscription

Choose between a **1, 2, or 3-year FLP subscription**.

Most students are able to complete all three levels within two years.

We recommend:

Certificate Level: 3-year subscription

Operational Level: 2-year subscription

Management/Strategic Level: 1-year subscription

Step 4 - Select your start date

We recommend starting on **1 March, 1 June, 1 September or 1 December**.

This will enable you to maximise the number of Case Study Exam sittings and get the most out of your subscription.

Step 5 - Purchase your subscription

This is where your journey begins. Choose between our **FLP Standard** or **FLP Premium*** packages.

***FLP Premium includes Case Study Classes for each level.**

Step 6 - Register on the CIMA website

Create your account at cimaglobal.com and share your CIMA Account Number with us.
