Why study with IBTC

BEST PASS RATE

Our vision is to be the best college in South Africa because we have the highest pass rates. We might not be the biggest, with the biggest student intake, but we will have the most students passing.

IBTC STUDENTS HAVE AN UNFAIR ADVANTAGE

It's a combination of factors that enable you to study less, score higher and qualify faster. We start with a detailed study plan that tells you the order in which you must study and when to attempt your progress tests and mock exams. If you have purchased Home Study Plus, you will also have access to online resources.

But the silver bullet is definitely our dedicated tutors with fast query turn-around times and programme monitors who hold your hand throughout the whole journey. We regularly check in with you to see how you are doing and to keep you on track.

The formula to get you exam fit

To qualify for our Pass Assured Promise, you need to have submitted Test 1 and 2 (from your POE) for our feedback (not to be marked). You should also have attempted your final exam within 6 months of having received your study material. Take the tutor's comments on board and you're on your way to passing your exam. In the unlikely event that you don't pass, you will receive 3 additional months of tutor support and you can again submit progress tests or POE activities to your tutor for marking or feedback. (Note that no new study material will be provided.)

"I tried it on my own and failed twice. Then I joined IBTC and with the help of the tutor I passed first time."

- Saul Williamson

We are so confident that you will pass first time that you can come back for free if you don't.
